

NET3 TECHNOLOGY

Channel Partner Program

Your Partner for all things Private Cloud.

Cloud technology has redefined the IT landscape, equipping businesses to be more agile in meeting customer demands and ensuring robust business continuity. These changes, however, have made it challenging to keep up with customer needs and demands. If you're an IT solution/service provider or MSP, gain a competitive edge with your customer base through Net3 Technology's Channel Partner Program:

- ✓ **Simplify Reliable Cloud Offerings**
- ✓ **Keep Margins High**
- ✓ **Offer Elite, Fast, U.S.-based Customer Support**

Gain a Competitive Edge.

Net3 Technology's Channel Partner Program is designed to help IT providers and MSPs overcome today's challenges and gain a competitive edge. By joining Net3's Channel Partner Program, IT providers and MSPs can:

- **Enhance Service Offerings:** Provide customers with reliable, advanced - yet simple - cloud solutions with white-labeling as an option.
- **Improve Customer Satisfaction:** Meet and exceed customer expectations with high-quality services and fast customer response times.
- **Increase Retention:** Build long-term relationships with customers by delivering consistent value and cloud expertise.

www.n3t.com/channelpartnerprogram

Cloud Services We Offer:

- **IaaS**
- **BACKUP/DRaaS**
- **CYBERSECURITY**
- **CLOUD MANAGED SERVICES**
 - Backup/DR
 - Security/Email Security/EDR
 - Managed/Remote Monitoring

MSP Challenges

- **Keeping Up with Customer Needs.**
Rapid changes in technology and customer requirements make it difficult to stay ahead.
- **Ensuring Business Continuity.**
Maintaining seamless operations during transitions and disruptions is crucial.
- **Competitive Pressures.**
The market is saturated with providers, making differentiation a key factor in success.

Reliable & Easy Cloud Solutions.

At Net3, we know customers don't like complicated. IT professionals have a myriad of responsibilities, and if they can reduce the amount of solutions to achieve business goals, why not implement those solutions and strategies? Net3 has done the due diligence to research and test data protection products and has found 1 solution to do it all.

- » Backup/Disaster Recovery
(monthly testing & Runbooks included)
- » Anti-malware & Anti-Ransomware Detection
- » Email Security
- » Monitoring & Alerts
- » EDR
- » Patch Management
- » Vulnerability Assessments

Affordable Solutions to Improve Your Profit Margins.

Net3 Technology understands the importance of fair and transparent pricing in building trust and long-term relationships with customers. Our pricing is consistent and structured. This allows you to offer stable and predictable costs to your customers all while keeping your margins high. By offering more value (such as fast customer support and easy to use cloud solutions), your customers will have an increased sense of satisfaction and loyalty.

White-Label Cloud Options.

Again, we like to keep it simple. Net3 offers seamless white-label cloud services, allowing our Channel Partners to save significantly on labor and overhead costs associated with producing certain products or services. This ensures that you can focus on delivering value to your customers without complicating your service offerings by introducing another partner name.

Benefits of White-Labeling:

- Cost Effective
- Scaling Resources is Easy
- Add Another Stream of Revenue
- Beat Your Competition

About Net3 Technology

Net3 is a leading Cloud Services Provider headquartered in Greenville, SC. We own and operate PvDC Cloud, a private virtual data center located on both the East and West coasts. Our cloud offerings span a wide spectrum, ensuring we can meet every customer's diverse needs.

Our Mission

To help Channel Partners seamlessly offer cloud solutions by offering the expertise and guidance to improve and expand their business, improve costs, and ensure cloud confidence to their customers.
